We Move Independence - and Move Education Forward

Your Salt Lake City School District Transit Pass
provides **unlimited access** to UTA buses,
TRAX, UTA On Demand, and
the S-Line streetcar — at **no cost** to you.

The Salt Lake City School District Transit Pass is more than just getting to and from. It is an important tool for **student success**. Reliable access to school, after-school programs, tutoring, internships, and community resources helps every student stay engaged, supported, and on track for graduation.

Students who arrive at school consistently are more likely to build strong relationships, participate in learning, and take advantage of the opportunities that shape their future. This pass helps remove barriers so every student can show up ready to learn.

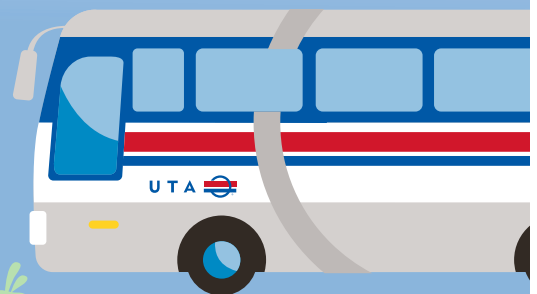

Supporting Families, Strengthening Success

One **Guardian Pass** is available per household upon request, allowing a parent or guardian to accompany their student to and from school and other educational activities. Request the pass through your child's school.

Your Journey Matters

The Salt Lake City School District is committed to ensuring that every student — in every neighborhood — has the freedom, safety, and support needed to reach their goals. This transit pass is part of that commitment.

If you have any questions or need assistance, please contact your child's school office.
